Location: Gilesport

Summary

Results-driven programmer with over 5 years of experience in software development, specializing in back-end systems and data analytics. Adept at building scalable applications using advanced Python and Vue.js, and passionate about leveraging machine learning techniques to enhance user experiences. A certified Scrum Master committed to agile methodologies and continuous improvement.

Experience

Software Engineer

Tech Innovations Inc., Gilesport

June 2020 - Present

- Developed and maintained an **API Gateway** that improved data retrieval speed by 30% through optimized request handling.
- Led a team in creating a **Microservices Architecture** for a large-scale e-commerce platform, resulting in a 25% increase in deployment efficiency and reduced downtime.
- Implemented a **Data Analytics Dashboard** using Python and Vue.js, enabling the marketing team to access real-time insights, which improved campaign targeting by 40%.
- Collaborated with cross-functional teams in an agile environment, facilitating daily stand-ups and ensuring project milestones were met.

Junior Developer

Future Tech Solutions, Gilesport

January 2018 - May 2020

- Assisted in the development of a **Mobile App** that garnered over 10,000 downloads within the first month of launch.
 - Utilized intermediate skills in Rust to optimize back-end processes, reducing server response times by 15%.
 - Engaged in code reviews and pair programming to elevate code quality and foster team collaboration.
-

Skills

- **Python (Advanced)**: Proficient in developing complex algorithms and data structures; utilized for back-end development and data processing.
 - **Vue.js (Advanced)**: Extensive experience in building responsive user interfaces and single-page applications.
 - **Rust (Intermediate)**: Competent in systems programming and performance optimization.
 - **Machine Learning (Intermediate)**: Developed predictive models to enhance user personalization features.
 - **Redis (Beginner)**: Familiar with basic caching strategies to improve application performance.
 - **Node.js (Beginner)**: Basic knowledge of building server-side applications and RESTful APIs.
-

Projects

- **API Gateway**: Designed a robust API gateway for a multi-service architecture, reducing request latency by 30% and improving service reliability.
- **Microservices Architecture**: Spearheaded the transition from a monolithic to microservices architecture, leading to a 25% increase in system scalability and maintainability.

- **Data Analytics Dashboard:** Created a dashboard that aggregates data from various sources, enabling stakeholders to make data-driven decisions quickly.
 - **Mobile App:** Contributed to the development of a mobile application that achieved over 10,000 downloads, enhancing user engagement and retention.
-

Certifications

- **Scrum Master Certification**
Scrum Alliance, 2021 - Demonstrated expertise in Agile project management and team facilitation.
-

Education

Bachelor of Science in Computer Science

Gilesport University, Gilesport

Graduated: May 2017

- Completed coursework in software engineering, data structures, and algorithms, achieving a GPA of 3.8/4.0.
