---

## Summary

Dedicated and detail-oriented programmer with over 5 years of experience in full-stack development and data analytics. Adept at leveraging cutting-edge technologies to build robust applications. Passionate about solving complex problems and delivering high-quality software solutions. Proven track record of enhancing system functionality and improving user experience through innovative development practices.

---

## Experience

### Senior Software Developer

**Tech Innovations Inc.** - Rachelborough, ST

June 2021 - Present

- Developed and maintained scalable web applications using **React** (Advanced) and **Flask** (Expert) frameworks, resulting in a 30% increase in user engagement.
- Led a team of developers to create an **API Gateway** that streamlined communication between services, reducing response time by 40%.
- Implemented data caching strategies with **Redis** (Expert), which improved application performance and reduced database load by 50%.

## Software Engineer

**NextGen Solutions** - Rachelborough, ST

January 2019 - May 2021

- Spearheaded the development of an **E-commerce Platform** using **FastAPI** (Intermediate) and **Angular** (Advanced), achieving a 25% boost in sales within the first quarter post-launch.
- Collaborated with data scientists to design a **Machine Learning Pipeline** that enhanced predictive analytics capabilities, resulting in a 15% increase in forecast accuracy.
- Utilized **Kubernetes** (Advanced) for container orchestration, which improved deployment efficiency and reduced downtime by 20%.

## Junior Developer

**Greenfield Technologies** - Rachelborough, ST

June 2017 - December 2018

- Assisted in the creation of a **Data Analytics Dashboard** that provided critical insights for business decision-making, leading to a 10% reduction in operational costs.
  - Engaged in database design and management using **MongoDB** (Intermediate) and **MySQL** (Intermediate), ensuring optimal data retrieval and storage practices.
- 

## Skills

- **Programming Languages & Frameworks:**
  - Python (Advanced)
  - TypeScript (Intermediate)
  - Flask (Expert)
  - FastAPI (Intermediate)
  - React (Advanced)
  - Angular (Advanced)
- **Databases:**

- MySQL (Intermediate)
  - MongoDB (Intermediate)
  - Redis (Expert)
  - **DevOps & Tools:**
  - Kubernetes (Advanced)
  - **Certifications:**
  - Google Cloud Professional
  - AWS Certified Solutions Architect
  - Scrum Master Certification
- 

## Projects

- **Data Analytics Dashboard:** Developed a comprehensive dashboard for tracking key business metrics, enhancing data visibility for stakeholders and enabling faster decision-making.
  - **E-commerce Platform:** Led the design and implementation of a user-friendly online shopping experience that integrated payment gateways and inventory management, resulting in a rapid increase in user transactions.
  - **Machine Learning Pipeline:** Collaborated on a project that automated data processing and model deployment, significantly reducing the time from data ingestion to actionable insights.
  - **API Gateway:** Architected a gateway solution that improved API management and security for microservices, providing a single entry point for clients and improving overall system robustness.
  - **Web Application:** Created a responsive web application for a local business, increasing their online presence and facilitating customer interactions, which contributed to a 40% rise in customer inquiries.
-

# Education

## **Bachelor of Science in Computer Science**

**State University** - Rachelborough, ST

Graduated: May 2017

- Relevant Coursework: Data Structures, Web Development, Database Management, Cloud Computing
- 

## **Personal Interests**

When not coding, I enjoy participating in hackathons, contributing to open-source projects, and mentoring aspiring developers. I also have a keen interest in machine learning and its applications in real-world scenarios.
