---

## Summary

Detail-oriented and innovative programmer with over 7 years of experience in software development. Proven track record of delivering high-quality applications and solutions across various industries. Expertise in building scalable web applications using **Rust**, **React**, and **Flask**. Adept at collaborating with cross-functional teams to drive project success and enhance user experience. Eager to leverage my skills in a challenging environment that fosters innovation and growth.

---

## Experience

### Senior Software Engineer

**Tech Innovations Inc.** - Rosemouth, OR

March 2020 - Present

- Led the development of a **Payment Processing System** that streamlined transactions for over 10,000 users, resulting in a 30% reduction in processing time and a 15% decrease in transaction errors.
- Collaborated with a team of developers to create a **Data Analytics Dashboard** that provided real-time insights, improving decision-making for business stakeholders by 25%.
- Implemented CI/CD pipelines using **Jenkins**, which improved deployment frequency by 40%.

- Enhanced application performance through database optimization with **MySQL**, resulting in a 20% improvement in query response times.

## Software Developer

**Creative Solutions Ltd.** - Rosemouth, OR

June 2016 - February 2020

- Developed and maintained web applications using **React** and **Flask**, achieving a user satisfaction rating of 95% through responsive design and user-centric features.
  - Contributed to backend development with **Django**, integrating RESTful APIs that enhanced functionality for mobile applications.
  - Worked closely with product owners to define project scope and requirements, ensuring alignment with business goals and user needs.
  - Actively participated in Agile ceremonies as a **Scrum Master**, facilitating team discussions and maintaining project timelines.
- 

## Skills

- **Rust:** Expert
  - **React:** Expert
  - **Flask:** Expert
  - **Django:** Advanced
  - **Jenkins:** Advanced
  - **JavaScript:** Expert
  - **Git:** Expert
  - **FastAPI:** Advanced
  - **MySQL:** Expert
  - **AWS:** Advanced
-

# Projects

## Payment Processing System

- Designed and implemented a secure payment processing platform that supports multiple payment methods, ensuring compliance with industry standards. Resulted in a 40% increase in transaction volume and positive feedback from users regarding ease of use.

## Data Analytics Dashboard

- Developed an interactive dashboard using **React** and **Flask** to visualize key metrics for business performance, enabling stakeholders to make informed decisions. The dashboard is now used by over 50 teams across the organization.
- 

# Certifications

- **Scrum Master Certification**
  - **Certified Kubernetes Administrator**
- 

# Education

## Bachelor of Science in Computer Science

**Rosemouth University** - Rosemouth, OR

Graduated: May 2016

- Relevant Coursework: Software Engineering, Database Management Systems, Web Development
  - Capstone Project: Developed an e-commerce platform using **Django** and **React**, receiving high praise for its intuitive design and functionality.
