

Request for Proposal (RFP)

Executive Summary

MedTech Industries is seeking proposals from experienced development teams for the enhancement of our enterprise web application. This project aims to improve the security and performance of our existing platform, ensuring we meet industry standards and deliver exceptional user experiences. We are committed to leveraging cutting-edge technologies and methodologies to achieve our objectives.

Project Overview

- **Project Name:** Enterprise Web Application Development
- **Client:** MedTech Industries
- **Project Type:** Security Enhancement
- **Duration:** 17 months
- **Team Size:** 11 people
- **Budget Range:** \$500K - \$1M
- **Start Date:** November 28, 2025
- **Location:** Williamfurt
- **Remote Work:** Allowed

Technical Requirements

The ideal development team should possess the following technical skills and expertise:

- **Django:** Intermediate level (Preferred certifications: Google Cloud Professional)
- **JavaScript:** Advanced level (Preferred certifications: Google Cloud Professional, AWS Certified Solutions Architect)

- **Angular:** Advanced level (Preferred certifications: Certified Kubernetes Administrator)
- **Machine Learning:** Advanced level (Preferred certifications: Google Cloud Professional, Certified Kubernetes Administrator)
- **Microservices:** Expert level (Preferred certifications: Google Cloud Professional, AWS Certified Solutions Architect)
- **AWS:** Expert level (Preferred certifications: AWS Certified Solutions Architect)
- **Kubernetes:** Intermediate level (Preferred certifications: Certified Kubernetes Administrator, Google Cloud Professional)
- **React:** Intermediate level
- **Docker:** Intermediate level (Preferred certifications: Certified Kubernetes Administrator, AWS Certified Solutions Architect)

Expected Team Profile

We expect the development team to consist of the following roles:

- **Project Manager:** Oversee project timelines, deliverables, and team coordination.
- **Lead Developer:** Guide the technical aspects and architecture of the application.
- **Backend Developers (2):** Focus on backend logic, database management, and API development.
- **Frontend Developers (2):** Work on user interfaces and client-side logic.
- **Machine Learning Engineer:** Implement machine learning models and algorithms.
- **Security Specialist:** Ensure application security and compliance with regulations.
- **DevOps Engineer:** Manage deployment processes and infrastructure.
- **Quality Assurance Tester (2):** Conduct testing to ensure software quality and functionality.

Timeline

1. **Proposal Submission Deadline:** [Insert Date]
2. **Proposal Evaluation Period:** [Insert Date]
3. **Team Selection and Notification:** [Insert Date]
4. **Project Kick-off:** November 28, 2025
5. **Milestones:**
6. **Phase 1:** Requirement Gathering and Analysis (Month 1-2)
7. **Phase 2:** Development of Core Features (Month 3-10)
8. **Phase 3:** Security Enhancement Implementation (Month 11-14)
9. **Phase 4:** Testing and Quality Assurance (Month 15)
10. **Phase 5:** Deployment and Maintenance (Month 16-17)

Budget

The budget for this project ranges from **\$500,000 to \$1,000,000**. Proposals should provide a detailed breakdown of costs associated with development, resources, and any additional expenses.

Proposal Guidelines

Interested teams should submit their proposals by [Insert Deadline]. Proposals must include:

- Company profile and relevant experience
- Team composition and individual qualifications
- Detailed project approach and methodologies
- Timeline with key milestones
- Budget breakdown
- References from previous clients

Acceptance Criteria and Evaluation Process

Proposals will be evaluated based on the following criteria:

1. **Technical Expertise:** Alignment with the technical requirements outlined above.

2. **Experience:** Proven track record in similar projects.
3. **Team Composition:** Adequacy and qualifications of the proposed team.
4. **Cost Effectiveness:** Competitive pricing and resource management.
5. **Project Approach:** Clarity and feasibility of the proposed methodology.
