

James Vazquez

Email: william24@example.com

Location: North Kenneth

Summary

Innovative and results-driven programmer with over 5 years of experience in developing dynamic web applications and backend services.

Specializing in **React** and **Docker**, I have a proven track record of delivering high-quality software solutions that enhance user experience and operational efficiency. Passionate about leveraging technology to solve complex problems and committed to continuous learning and improvement.

Experience

Software Engineer

Tech Solutions Inc. - North Kenneth, IL

January 2020 - Present

- Developed and maintained a high-traffic mobile application using **React**, resulting in a 30% increase in user engagement.
- Collaborated with cross-functional teams to design and implement an **API Gateway** that improved application performance by 25%.
- Conducted code reviews and implemented best practices in **MySQL** and **Docker**, enhancing system reliability and scalability.
- Spearheaded the transition to a containerized environment, significantly reducing deployment times by 40%.

Junior Developer

Innovatech - North Kenneth, IL

June 2017 - December 2019

- Assisted in the development of web applications utilizing **React** and **Go**, contributing to a 15% reduction in loading times. - Developed complex queries and optimized database performance with **MySQL**, which improved data retrieval speeds by 20%. - Gained experience in **DevOps** principles, helping to automate deployment processes, resulting in a more efficient workflow.

Skills

- **React:** Expert
 - **Docker:** Expert
 - **MySQL:** Advanced
 - **Go:** Intermediate
 - **C++:** Beginner
 - **PostgreSQL:** Beginner
 - **DevOps:** Beginner
-

Projects

Mobile App

- **Description:** Designed and implemented a cross-platform mobile application that allows users to track their fitness goals.
- **Technologies Used:** React, MySQL, Docker
- **Achievements:** Achieved over 10,000 downloads within the first month of launch, with a 4.8-star rating on app stores.

API Gateway

- **Description:** Developed an API Gateway for seamless integration of multiple services, improving communication and data flow between applications.

- **Technologies Used:** Go, Docker
 - **Achievements:** Reduced API response times by 30%, leading to enhanced user satisfaction and reduced server load.
-

Certifications

- **Certified Kubernetes Administrator** - 2022
-

Education

Bachelor of Science in Computer Science

University of North Kenneth - North Kenneth, IL

Graduated: May 2017

- Relevant Coursework: Data Structures, Database Management, Software Engineering

Additional Information

- Passionate about continuous learning and currently exploring advanced **PostgreSQL** and **C++** concepts.
- Actively contributing to open-source projects and engaging with tech communities to share knowledge and best practices.
