Summary

Passionate and dedicated programmer with over 6 years of experience in software development and a strong focus on backend technologies. Proven expertise in building scalable applications using modern programming languages and frameworks. Adept at collaborating with cross-functional teams to deliver high-quality software solutions on time and within budget. Committed to continuous learning and professional growth.

Experience

Software Engineer

Tech Solutions Inc. — Elizabethhaven, NY

January 2021 - Present

- Developed and maintained a robust **API Gateway** that handles over 10,000 requests per minute, improving response times by 40%.
- Collaborated with a team of 8 to build an **E-commerce Platform** using **TypeScript** and **PostgreSQL**, resulting in a 30% increase in sales within the first quarter post-launch.
- Implemented Docker containers for microservices, enhancing deployment speed by 50% and reducing server costs by 20%.

Backend Developer

Innovatech Corp. — Elizabethhaven, NY

June 2018 - December 2020

- Led the development of a **Payment Processing System** that securely processes transactions with an uptime of 99.9%. - Utilized **AWS** infrastructure to scale applications, achieving a cost reduction of 25% through effective resource management. - Introduced CI/CD pipelines using **Git** and **Docker**, which streamlined the deployment process, reducing deployment times from hours to minutes.

Junior Developer

WebDev Studios — Elizabethhaven, NY

August 2016 - May 2018

- Contributed to the development of a dynamic **Web Application** that served over 5,000 daily users, enhancing user experience through responsive design. - Assisted in database management with **MySQL**, optimizing queries for improved performance. - Gained foundational knowledge in **Go** and **Rust**, participating in code reviews and team projects.

Skills

- **C++**: Expert
 - **Rust**: Expert
 - **PostgreSQL**: Expert
 - **Docker**: Advanced
 - **AWS**: Advanced
 - **TypeScript**: Advanced
 - **JavaScript**: Advanced
 - **Go**: Intermediate
 - **MySQL**: Intermediate
 - **Git**: Expert
 - **Microservices**: Beginner
-

Projects

- **API Gateway**

- Architected a high-performance API Gateway that integrates multiple microservices, enhancing system reliability and scalability.
 - **E-commerce Platform**
 - Developed a full-stack e-commerce solution, implementing secure payment processing and user authentication, resulting in significant sales growth.
 - **Payment Processing System**
 - Designed a robust payment processing system that handles various payment methods, ensuring compliance with industry standards.
 - **Web Application**
 - Created a user-friendly web application that provides real-time data visualization, improving user engagement and satisfaction.
-

Certifications

- **Docker Certified Associate** — 2021
 - **AWS Certified Solutions Architect** — 2022
 - **Scrum Master Certification** — 2023
-

Education

Bachelor of Science in Computer Science

Elizabethhaven University — Elizabethhaven, NY

Graduated: May 2016

Personal Interests

In my spare time, I enjoy contributing to open-source projects and exploring new programming languages. I also love hiking and photography, often blending my technical skills with my creative pursuits.
