

Gregory Davila

Email: hartjessica@example.org

Location: Port Fredchester

Summary

Innovative and results-driven programmer with over 6 years of experience in software development, specializing in full-stack solutions and machine learning applications. Proven ability to leverage advanced programming skills in Java, C++, and TypeScript to deliver high-quality software products. Passionate about developing scalable microservices and enhancing user experiences through insightful data analytics.

Experience

Software Engineer

Tech Innovations Inc. | Port Fredchester, FL

June 2019 - Present

- Led the development of an **API Gateway** that reduced system latency by 30%, improving response times for over 10,000 daily users.
- Collaborated in a team of 5 to design and implement a **Payment Processing System**, ensuring PCI compliance and reducing transaction failure rates by 15%.
- Developed a **Data Analytics Dashboard** using Vue.js and Django, providing real-time insights that enhanced decision-making processes for clients.
- Implemented microservices architecture, which improved system scalability and reduced deployment times by 40%.

Junior Developer

CodeCrafters Ltd. | Port Fredchester, FL

May 2017 - May 2019

- Assisted in building web applications using Angular and TypeScript, increasing user engagement by 25%.
 - Contributed to the development of back-end services using Java, focusing on high availability and performance.
 - Gained foundational experience in PostgreSQL, optimizing queries that improved data retrieval times by 20%.
-

Skills

- **Java:** Advanced
 - **Machine Learning:** Advanced
 - **Redis:** Advanced
 - **Microservices:** Advanced
 - **TypeScript:** Expert
 - **Node.js:** Beginner
 - **Angular:** Intermediate
 - **C++:** Advanced
 - **Vue.js:** Expert
 - **PostgreSQL:** Beginner
 - **Django:** Expert
-

Projects

- **API Gateway**
 - Developed a robust API Gateway that integrated multiple back-end services, enhancing the performance and reliability of client applications.
- **Payment Processing System**

- Architected a secure payment processing system that streamlined transactions, achieving a 99.9% uptime and significantly improving customer satisfaction.
 - **Data Analytics Dashboard**
 - Created a comprehensive analytics dashboard that visualized user data and trends, leading to a 20% increase in actionable insights for stakeholders.
 - **Web Application**
 - Built a responsive web application for a local business, increasing their online sales by 50% within the first three months of launch.
-

Education

Bachelor of Science in Computer Science

University of Port Fredchester | Port Fredchester, FL

Graduated: May 2017

- Relevant Coursework: Data Structures, Algorithms, Machine Learning, Database Management Systems
-

Certifications

- **Certified Java Programmer**
Oracle | 2020
 - **Machine Learning Specialization**
Coursera | 2021
 - **Django for Everybody**
Coursera | 2022
-

Additional Information

- **Languages:** Fluent in English and Spanish
 - **Interests:** Open-source contributions, Hackathons, AI ethics
