

# Request for Proposal (RFP) for Enterprise Web Application Development

---

## Executive Summary

MedTech Industries is seeking proposals from qualified development teams to undertake the development of an enterprise web application focused on enhancing our operational efficiency through DevOps automation. The selected team will play a crucial role in delivering a robust application that aligns with our business objectives, enhances productivity, and ensures high standards of security and performance.

## Project Overview

- **Project Title:** Enterprise Web Application Development
- **Client:** MedTech Industries
- **Project Type:** Enterprise Web Application
- **Duration:** 8 months
- **Team Size:** 9 members
- **Budget Range:** \$250K - \$500K
- **Start Date:** November 28, 2025
- **Location:** MejiaTown (Remote work allowed)

## Business Context and Objectives

The primary objective of this project is to develop a comprehensive enterprise web application that streamlines our DevOps processes, enhances collaboration among teams, and provides real-time insights into operations. The application should be scalable, secure, and capable of

integrating with existing systems to allow for seamless workflow automation.

## Technical Requirements

- **REQUIRED: Angular** - Expert level (Preferred certifications: Certified Kubernetes Administrator, Google Cloud Professional)
- **Preferred: Python** - Intermediate level
- **Preferred: Kubernetes** - Expert level
- **REQUIRED: TypeScript** - Expert level (Preferred certifications: AWS Certified Solutions Architect)
- **REQUIRED: AWS** - Expert level
- **REQUIRED: Microservices** - Intermediate level (Preferred certifications: Google Cloud Professional, Certified Kubernetes Administrator)
- **REQUIRED: Machine Learning** - Intermediate level (Preferred certifications: Google Cloud Professional)
- **REQUIRED: Docker** - Intermediate level (Preferred certifications: Certified Kubernetes Administrator, AWS Certified Solutions Architect)

## Expected Team Profile

The ideal development team will consist of skilled professionals with the following profiles:

1. **Project Manager** - Experienced in managing enterprise-level projects with strong leadership and communication skills.
2. **Frontend Developer (Angular/TypeScript)** - Expert in Angular and TypeScript, familiar with best practices in frontend development.
3. **Backend Developer (AWS/Python)** - Intermediate knowledge of Python and expert in AWS services, capable of building microservices.
4. **DevOps Engineer (Kubernetes/Docker)** - Expert in Kubernetes, with intermediate knowledge of Docker for container orchestration.
5. **Data Scientist (Machine Learning)** - Intermediate expertise in machine learning concepts, capable of developing models that can enhance application capabilities.

6. **QA Engineer** - Strong skills in testing methodologies and tools to ensure product quality and performance.
7. **UI/UX Designer** - Expertise in user interface and user experience design, ensuring a seamless and intuitive application interface.
8. **Business Analyst** - Capable of translating business requirements into technical specifications.
9. **Technical Writer** - Responsible for documentation, ensuring clarity and accessibility of technical content.

## Timeline

- **RFP Release Date:** [Insert Date]
- **Proposal Submission Deadline:** [Insert Date]
- **Proposal Evaluation Period:** [Insert Date]
- **Contract Award Date:** [Insert Date]
- **Project Kickoff:** November 28, 2025
- **Project Completion:** [Insert Date - 8 months from kickoff]

## Budget

The estimated budget for this project is in the range of **\$250,000 to \$500,000**. Proposals should include a detailed budget breakdown.

## Proposal Guidelines

Interested teams should submit their proposals including the following:

1. Company background and relevant experience
2. Detailed project approach and methodology
3. Team composition and profiles of key personnel
4. Timeline and milestones
5. Budget breakdown
6. References from previous clients

## Acceptance Criteria and Evaluation Process

Proposals will be evaluated based on the following criteria:

- **Technical Expertise:** Alignment with technical requirements and team profiles.
- **Experience:** Proven track record in similar projects.
- **Cost Effectiveness:** Overall budget and value for money.
- **Project Approach:** Clarity and feasibility of the proposed project approach.
- **References:** Positive feedback from previous clients.

## Contact Information

For any inquiries or further information, please contact:

- **Name:** [Insert Contact Name]
- **Position:** [Insert Position]
- **Email:** [Insert Email Address]
- **Phone:** [Insert Phone Number]

## Proposal Submission Guidelines

Please submit your proposals electronically in PDF format to [Insert Submission Email] by [Insert Submission Deadline]. Late submissions will not be considered.

Thank you for your interest in partnering with MedTech Industries for this project. We look forward to your proposals and to potentially working together to achieve our goals.
