## Summary

Dynamic and results-driven software engineer with over 5 years of experience in developing innovative applications and systems. Proficient in multiple programming languages and frameworks, with a strong focus on backend development and DevOps practices. Proven ability to lead projects from concept to deployment, optimizing performance and enhancing user experience.

---

## Skills

- **JavaScript:** Intermediate
  - **MySQL:** Advanced
  - **Java:** Expert
  - **FastAPI:** Advanced
  - **DevOps:** Advanced
  - **Microservices:** Intermediate
  - **Python:** Expert
- 

## Experience

### Senior Software Engineer

**Tech Innovations Inc.** | Lawrencestad, ST

March 2021 - Present

- Led a team of 5 developers to design and implement a **Payment Processing System** that improved transaction speed by 30% and reduced downtime by 20%. - Developed microservices architecture for various applications, resulting in a 40% increase in deployment efficiency.
- Collaborated with cross-functional teams to enhance system reliability and scalability, utilizing **Docker** for containerization.

## Software Engineer

**Creative Solutions LLC** | Lawrencestad, ST

June 2018 - February 2021

- Played a key role in the development of a **Mobile App**, which achieved over 10,000 downloads within the first month of launch. - Implemented a robust backend using **FastAPI** and **MySQL**, optimizing data retrieval times by 25%. - Conducted regular code reviews and implemented best practices, enhancing overall team productivity.

## Junior Developer

**Startup Hub** | Lawrencestad, ST

January 2017 - May 2018

- Assisted in the development of various web applications using **Java** and **JavaScript**, contributing to a 15% increase in user engagement. - Supported the migration of legacy systems to modern platforms, significantly improving performance and maintainability.
- 

## Projects

### Mobile App

- Developed a cross-platform mobile application that provides users with real-time notifications and updates. Utilized **React Native** and integrated with a **FastAPI** backend, achieving a 4.8-star rating on both iOS and Android.

## Payment Processing System

- Designed and implemented a secure payment processing system that supports multiple payment methods. Achieved PCI compliance and reduced transaction error rates by 50% through thorough testing and optimization.
- 

## Certifications

- **Docker Certified Associate** (2020)
- 

## Education

### **Bachelor of Science in Computer Science**

**University of Lawrencestad** | Lawrencestad, ST

Graduated: May 2016

- Relevant Coursework: Software Development, Database Management, System Architecture
