## Summary

Versatile and results-driven programmer with over 5 years of experience in developing robust web applications and data-driven solutions. Proficient in a range of programming languages and frameworks, including **Expert** proficiency in Java and Jenkins, and **Advanced** skills in Node.js and Flask. Proven track record of delivering high-quality software on time and collaborating effectively in agile environments. Passionate about leveraging technology to solve complex problems and enhance user experiences.

---

## Experience

### Software Engineer

**Tech Innovations Inc.** – Robertsonview, CA

June 2020 – Present

- Developed a **Data Analytics Dashboard** using **Java** and **Flask** that improved data visualization for clients, resulting in a 30% increase in user engagement.
- Led a team of 5 in implementing CI/CD pipelines with **Jenkins**, reducing deployment times by 40%.
- Collaborated with cross-functional teams to design and launch an **E-commerce Platform** that handled over 10,000 transactions daily, increasing revenue by 25% in the first quarter post-launch.

## Junior Developer

**Web Solutions Co.** – Robertsonview, CA

January 2018 – May 2020

- Assisted in the development of a company-wide application using **Node.js** and **JavaScript**, leading to a 50% reduction in manual data entry tasks.
  - Maintained version control with **Git**, ensuring code integrity and facilitating collaboration among team members.
  - Gained hands-on experience in **Django**, contributing to the backend of several customer-facing applications.
- 

## Skills

- **Java:** Expert
  - **Jenkins:** Expert
  - **TypeScript:** Expert
  - **Node.js:** Advanced
  - **Flask:** Advanced
  - **JavaScript:** Intermediate
  - **Django:** Intermediate
  - **Git:** Intermediate
  - **Redis:** Beginner
- 

## Projects

### Data Analytics Dashboard

Role: Lead Developer

- Designed and developed a dashboard that integrates multiple data sources to provide actionable insights for users.
- Utilized **Java** for backend services and **Flask** for the API, enabling real-time data processing.
- Achieved a user satisfaction rate of 95% based on client feedback.

## E-commerce Platform

Role: Full Stack Developer

- Played a key role in building a scalable e-commerce application that supports high traffic and transactions. - Implemented features such as user authentication, product search, and payment processing using **Node.js** and **TypeScript**. - The platform achieved a 20% increase in conversion rates compared to the previous system.

---

## Certifications

- **Scrum Master Certification** – Certified in Agile methodologies to improve team collaboration and project management.
- 

## Education

### Bachelor of Science in Computer Science

University of Robertsonview – Robertsonview, CA

Graduated: May 2017

- Relevant Coursework: Software Development, Database Management, Web Technologies, Data Structures.
  - Dean's List for academic excellence in multiple semesters.
-
