Location: West Courtneyview

Summary

Dynamic and detail-oriented software developer with over 5 years of experience in full-stack development and DevOps practices. Proven expertise in building scalable web applications and deploying them efficiently in cloud environments. Committed to delivering high-quality code and enhancing the user experience through innovative solutions.

Experience

Senior Software Engineer

Tech Innovations Inc., West Courtneyview

June 2021 - Present

- Spearheaded the development of a **Real-time Chat System** using **Vue.js** and **Flask**, which improved user engagement by 30%.
- Implemented CI/CD pipelines that reduced deployment times by 50% using **AWS** and **Kubernetes**.
- Collaborated with cross-functional teams to enhance the existing **E-commerce Platform**, achieving a 25% increase in site performance.

Software Developer

Bright Future Solutions, West Courtneyview

January 2019 - May 2021

- Played a key role in developing a **Machine Learning Pipeline**, streamlining data processing and model deployment, resulting in faster insights for clients.
- Built a responsive **Web Application** with **Angular** and **FastAPI**, which attracted over 15,000 users in the first three months.
- Actively contributed to improving application security, reducing vulnerabilities by 40% through rigorous testing and code reviews.

Junior Developer

Creative Tech Labs, West Courtneyview

August 2017 - December 2018

- Assisted in the design and implementation of a **Mobile App** that gained 10,000 downloads within the first month of launch.
 - Gained proficiency in **Java** and **Rust**, contributing to small-scale projects, and continuously improving coding standards.
-

Skills

- **DevOps:** Advanced
 - **JavaScript:** Advanced
 - **Vue.js:** Expert
 - **Angular:** Advanced
 - **Flask:** Intermediate
 - **FastAPI:** Intermediate
 - **Django:** Expert
 - **Rust:** Intermediate
 - **Java:** Beginner
-

Projects

- **Mobile App:** Developed a cross-platform mobile application that enhances user connectivity, which led to a 15% increase in user retention.
 - **Real-time Chat System:** Created an interactive chat solution that supports over 10,000 concurrent users with minimal latency.
 - **Machine Learning Pipeline:** Designed a robust pipeline that processes data and serves predictions, increasing operational efficiency by 35%.
 - **Web Application:** Launched a full-stack application that integrates user feedback mechanisms, significantly improving customer satisfaction ratings.
 - **E-commerce Platform:** Enhanced features and performance of a high-traffic e-commerce site, resulting in a record 50% increase in sales during peak seasons.
-

Certifications

- **AWS Certified Solutions Architect** - Achieved in March 2022
 - **Certified Kubernetes Administrator** - Achieved in May 2023
-

Education

Bachelor of Science in Computer Science

West Courtneyview University

Graduated: May 2017

- Relevant Coursework: Software Development, Cloud Computing, Data Structures, and Algorithms
 - Dean's List: 2015, 2016
-
