Summary

Passionate and results-driven software engineer with over 6 years of experience in building scalable web applications and microservices. Proficient in Go and Vue.js, with a solid understanding of AWS and Django. Adept at translating business requirements into technical solutions and leading cross-functional teams to achieve project goals. Eager to leverage my skills in a challenging role that promotes innovation and growth.

Experience

Senior Software Engineer

Tech Innovations Inc., Lake Daniel
June 2021 - Present

- Led the development of a **Real-time Chat System** using Go and WebSocket technology, improving user engagement by 40%.
- Architected and implemented a **Microservices** architecture that reduced system downtime by 30% through effective load balancing and fault tolerance strategies.
- Collaborated with UX designers to enhance the **Data Analytics Dashboard**, resulting in a 50% increase in user satisfaction based on feedback surveys.

Software Engineer

Creative Solutions LLC, Lake Daniel

March 2018 - May 2021

- Developed a **Machine Learning Pipeline** for data processing and analysis, which cut data processing time by 20%.
- Utilized **Django** to create a user-friendly interface for clients, significantly improving the overall user experience and client retention rates.
- Streamlined deployment processes using **AWS**, which resulted in a 25% reduction in operational costs.

Junior Developer

Future Tech Co., Lake Daniel

January 2017 - February 2018

- Assisted in the creation of a **Mobile App** that achieved over 10,000 downloads within the first month of release.
- Gained hands-on experience with **Redis** for caching and optimizing database queries, enhancing application performance by 15%.

Skills

- **Go:** Expert
- **Vue.js:** Advanced
- **Microservices:** Advanced
- **AWS:** Intermediate
- **Django:** Intermediate
- **Redis:** Intermediate

Projects

- **Mobile App:** Developed a cross-platform mobile application that offers real-time notifications, leading to a 30% increase in user engagement.
- **Real-time Chat System:** Designed and implemented a chat system that supports up to 10,000 concurrent users, enhancing community interaction and support.
- **Machine Learning Pipeline:** Built a robust pipeline that automates data extraction and processing, improving efficiency and accuracy in data analytics.
- **Data Analytics Dashboard:** Created a dashboard that visualizes key performance indicators, helping stakeholders make data-driven decisions effectively.

Certifications

- **Scrum Master Certification** - Certified Scrum Alliance, 2020

Education

Bachelor of Science in Computer Science
University of Lake Daniel, Lake Daniel
Graduated: December 2016
