Summary

Passionate and detail-oriented software developer with over 5 years of experience in building scalable web applications and microservices. Proficient in leveraging frameworks like Django and React to deliver high-quality software solutions. A strong advocate for best practices in software development and cloud technologies, with a track record of improving application performance and user experience.

Experience

Senior Software Engineer

Tech Solutions Inc. – New Christine
June 2020 – Present

- Led a team of 5 in designing and implementing a **Payment Processing System** that reduced transaction times by 30% and improved user satisfaction scores by 20%.
- Developed a **Web Application** using Django and React, which served over 10,000 users monthly, achieving a 99.9% uptime.
- Integrated microservices architecture using **Kubernetes** and **Docker**, which resulted in a 40% increase in deployment efficiency.

Software Developer

Innovatech – New Christine
January 2018 – May 2020

- Collaborated on the development of a **Content Management System** that streamlined content delivery for clients, leading to a 25% increase in content engagement.
- Implemented caching strategies using **Redis**, which improved response times by 50% for high-traffic applications.
- Contributed to the migration of legacy systems to modern cloud infrastructure, gaining a deep understanding of **Google Cloud** services.

Skills

- **Django**: Expert
- **React**: Advanced
- **Go**: Advanced
- **Microservices**: Advanced
- **Kubernetes**: Expert
- **Redis**: Expert
- **Machine Learning**: Intermediate
- **C++**: Intermediate
- **FastAPI**: Beginner
- **Vue.js**: Beginner
- **MongoDB**: Beginner
- **Docker**: Beginner

Projects

- **Web Application**: Designed and developed a dynamic web application that allowed users to track their expenses and manage budgets, achieving over 5,000 active users in the first three months post-launch.

- **Payment Processing System**: Spearheaded the integration of multiple payment gateways in a secure environment, resulting in a seamless checkout experience that reduced cart abandonment by 15%.
- **Content Management System**: Developed a user-friendly CMS that enabled clients to easily manage their website content, increasing client retention by 30% due to improved usability.

Education

Bachelor of Science in Computer Science
University of New Christine
Graduated: May 2017

Certifications

- **Google Cloud Professional** – Google Cloud, 2021

Additional Information

- Passionate about continuous learning; currently pursuing certifications in **Machine Learning** and **Advanced Docker** practices.
- Active contributor to open-source projects on GitHub, focusing on enhancing community-driven frameworks and tools.
- Enjoys participating in hackathons and tech meetups, fostering a collaborative spirit and keeping abreast of industry trends.
