Summary

Innovative and results-driven programmer with over 5 years of experience specializing in full-stack development and cloud architecture. Proficient in designing scalable applications and leveraging modern technologies for optimized performance. Passionate about learning and implementing cutting-edge solutions that drive business success.

Skills

- **AWS**: Advanced
- **Django**: Advanced
- **C++**: Expert
- **PostgreSQL**: Expert
- **JavaScript**: Advanced
- **Vue.js**: Advanced
- **Redis**: Advanced
- **Java**: Intermediate
- **Rust**: Advanced
- **Angular**: Intermediate
- **Machine Learning**: Beginner

Experience

Senior Software Engineer
Tech Solutions Inc., North John
June 2021 - Present

- Led the development of a **Data Analytics Dashboard** that improved data visualization for clients, resulting in a 30% increase in user engagement.
- Designed and implemented a **Microservices Architecture** for a large-scale application, enhancing system modularity and reducing deployment times by 40%.
- Collaborated with cross-functional teams to develop a **Real-time Chat System**, which increased customer satisfaction scores by 25%.

Software Developer
Innovative Apps LLC, North John
January 2018 - May 2021

- Developed a **Content Management System** using **Django** and **PostgreSQL**, streamlining content updates and reducing editing time by 50%.
- Contributed to the creation of a **Mobile App** that reached over 10,000 downloads in its first month, leveraging **Vue.js** for a responsive user experience.
- Implemented caching strategies with **Redis**, improving application speed by 35%.

Projects

- **Content Management System**: Created a user-friendly CMS with role-based access, enabling non-technical staff to manage content effortlessly.
- **Mobile App**: Developed a cross-platform mobile application using **Django** and **JavaScript**, enhancing user accessibility and engagement.

- **Data Analytics Dashboard**: Designed an interactive dashboard for real-time data insights, leading to data-driven decision-making for clients.
- **Real-time Chat System**: Engineered a chat application with instant messaging features, facilitating instant communication for users.
- **Microservices Architecture**: Transitioned a monolithic application to microservices, improving scalability and deployment efficiency.

Education

Bachelor of Science in Computer Science
University of North John
Graduated: May 2017

- Relevant Coursework: Software Development, Database Management, Cloud Computing, Machine Learning

---

Certifications

- **AWS Certified Solutions Architect – Associate** (2022)
- **Certified Django Developer** (2021)
- **C++ Certified Professional Programmer** (2019)

Additional Information

- **Languages**: Fluent in English, Conversational Spanish
- **Interests**: Open-source contributions, attending tech meetups, and exploring advancements in machine learning.
