Theodore Edwards

Email: butlercarrie@example.com
Location: North Michaelhaven

Summary

Passionate and results-driven programmer with over 5 years of experience in software development and DevOps practices. Proven expertise in building scalable applications and optimizing workflows across various platforms. Adept at utilizing advanced technologies in machine learning and cloud computing to deliver innovative solutions. Strong communicator with a commitment to continuous learning and professional growth.

Experience

Senior Software Engineer

Tech Innovations Inc. - North Michaelhaven
January 2021 - Present
- Led the implementation of a **Data Analytics Dashboard** that reduced data processing time by 40%, enabling real-time insights for business decisions. - Collaborated with cross-functional teams to design and deploy a **Cloud-based E-commerce Platform**, resulting in a 30% increase in user engagement. - Developed automated CI/CD pipelines using **Kubernetes** and **AWS**, improving deployment speed by 50%.

Software Developer

NextGen Solutions - North Michaelhaven
June 2018 - December 2020
- Developed and maintained web applications using **Flask**, enhancing user

experience and achieving a 25% increase in customer satisfaction. - Integrated machine learning algorithms to optimize product recommendations, leading to a 20% rise in sales conversions. - Improved database performance by implementing advanced MySQL queries and optimizing schema design.

Junior Developer

Creative Tech Co. - North Michaelhaven
January 2017 - May 2018
- Assisted in the development of internal tools using **JavaScript** and **Vue.js**, streamlining operations and reducing manual tasks by 15%. - Gained foundational knowledge of **Django** while contributing to the migration of legacy applications to modern frameworks.

Skills

- **DevOps:** Expert
- **Python:** Intermediate
- **JavaScript:** Advanced
- **Flask:** Expert
- **MySQL:** Expert
- **Node.js:** Intermediate
- **Machine Learning:** Expert
- **Django:** Beginner
- **Vue.js:** Beginner

Projects

Data Analytics Dashboard

- Developed a comprehensive dashboard for real-time analytics, allowing stakeholders to visualize key performance metrics.
- Utilized **Flask** and **MySQL** to create a robust backend, integrating data from various sources and ensuring high availability.

E-commerce Platform

- Architected a full-stack e-commerce solution leveraging **Node.js** and **Vue.js**, improving customer experience with a responsive design.
- Implemented secure payment processing and user authentication, resulting in enhanced security and user trust.

Certifications

- **Certified Kubernetes Administrator**
- **AWS Certified Solutions Architect**
- **Google Cloud Professional**

Education

Bachelor of Science in Computer Science
University of North Michaelhaven - North Michaelhaven
Graduated: June 2016
- Relevant Coursework: Database Management, Software Engineering, Machine Learning, Cloud Computing
